# The ABRIDGED

# ABRIGD

a Gibberish dictionary

Oh, my Lord-IT,  
a MAD-ONNA  
MAGIC TRICC!  
Call the Sissy and  
check your BRITCHIS!

by The BITS Inspector™

You struggle with the concept, and wrestle with the words, tripping and stumbling over the meaning, but no matter how hard you try, it all seems like...Gibberish, Gibberish, and more Gibberish! Well, you *won't* find much else among these pages, ***unless you read carefully.***

Hmmm, by that look in your eyes, it appears I haven't been clear enough. We need to get on the same page!

## This page:

So, set aside all this Gibberish for now: it is, after all, just a little tomfoolery in an otherwise *criminal*, and *deadly*, and frightfully *hurtful* world.

- Get a taste of how *criminal*, and, sense the *deadly* nature:
  - **A Bisi Day!**—Chapters 1–12 FREE preview
- Read the full story:
  - **A Bisi Day!**

If, however, you did manage to crawl your way through The ABRIGD while fighting off a burning desire to scream, “This is incredible Gibberish,” and, you think you have some great ideas you’d **like to contribute**, then feel free. *But be prepared: Suggestions for new Gibberish go through a strict approval procedure before acceptance.*

## I wish to pay my respects

To all those business and IT professionals who do truly attempt to improve the QUA-BITS and focus on giving your best to your employers and your respective industries above and beyond: Your efforts are duly noted and highly respected.

An important note to you all: A little tomfoolery can go a long way in easing the stress of the day. All this Gibberish is a play on words, most certainly not on your hearts.

Respectfully,

The BITS Inspector<sup>®</sup>

## Thanks to friends and colleagues

My very special thanks go to MN, BD, GZ, MRH, RD, JBK, JN, TB, BEF, LHS, DW, RM, and many others. All the assistance I received from you helped me to stay sane, to protect me from the Gibberish, and provided quality input that hopefully made it into the end-result.

Warmly,

Bitsi

## To my wife and children

And last, but most certainly first, I wish to express my unbounded gratitude, my undying love, my unconditional commitment, and my unequaled joy in my wife and children. It is because of you and for you that I started down this long, hard road, hoping to say something that may mean something, one day.

With all my love,

Your husband and father

# Introduction

The ABRIGD is the “Abridged Gibberish Dictionary.”

This publication is *a special edition of the ABRIDGD*, and it’s called, “The Abridged ABRIGD.”

In other words, this special version of the ABRIGD is an even further abridged ABRIGD.

Entries in this abridged ABRIGD cover only the Gibberish words and terms contained within the text of The BITS Inspector novel “A Bisi Day!” released by Bitsi-Lite Publishing.

**First, a few words borrowed from The ABRIGD which also apply to this publication.**

*Note: This publication doesn’t provide a comprehensive definition of the Gibberish language. The purpose is to cover only the key, and the most confusing of Gibberish terms that someone might come across, for example, when fighting with BITS, or indeed, with a BITS-Pro, but more specifically, when reading a BITS Inspector novel.*

*Note: No Gibberish words or terms that derive directly from the English base language are covered in The ABRIGD. For a definition of these terms and words, refer either to a version of the all-inclusive, full-service Exhausting Gibberish—The Dictionary, or any other works of Gibberish, of which there are many. Otherwise, simply fall back on any English*

*dictionary: These are both renowned and greatly favored for their clarity, reliability, and blatantly obvious lack of Gibberish.*

*Note: The title Exhausting Gibberish should have read Exhaustive Gibberish, but some disgruntled employee following a serious argument with his boss about the questionable supposed benefits offered by utter(ing) Gibberish, made a “typo” when editing the work. Many others accidentally missed the “typo” when preparing the work for final publication.*

*Note: The ABRIGD is generally accepted as providing the most accurate definition of those Gibberish words it contains and is, as such, the de facto standard. All other works of Gibberish are well known to be at best, unreliable, and at worst, complete gibberish. Having said that, the Exhausting Gibberish dictionary still holds the formal definition of Gibberish words and terms, even if it is more gibberish than Gibberish.*

*If you're caught quoting words or terms from The ABRIGD stating or implying that they're from the more Exhausting Gibberish, the BBBs could charge you with the offense of abusive Gibberish, which, of course, is outright mumbo jumbo, but, nevertheless a real high-cost risk.*

*Note: This edition of The ABRIGD is still incomplete and has been for decades since it requires frightening levels of effort and dedication to keep up with the daily influx of masses of proposed new Gibberish, all of which need review and either approval or rejection, the latter usually being the most obvious choice. Furthermore, it's extremely hard to find reliable personnel these days, and those precious few people who do actually have the required quality BITS core skills don't want to waste their valuable time on Gibberish.*

*Now, some tips on when and/or how to read or use, or not, The ABRIGD:*

*1. If you find yourself up to the neck in busted BITS, then this ABRIGD will not help you in the slightest. Anything in this ABRIGD that might attempt to describe how a person is to interpret BITS, or what that person is supposed do with BITS, even if it's correct, will have absolutely no*

*bearing on what he or she will encounter when dealing with your average real-world mangled BITS.*

*2. If you find yourself stuck in the middle of a conversation that you cannot get out of, and things seem to be moving desperately in the wrong direction, with someone screaming blue-bloody Gibberish at you, then don't even think about picking up this ABRIGD, unless you have the hardback extended version and you plan to... Ahem!*

*3. It's best to just leave this ABRIGD on a shelf in the bathroom, close to the toilet. So, if one day you're having trouble with a MAD-ONNA MAGIC CRAPPING, then go and sit on the toilet, pick up The ABRIGD, choose any random word, study it carefully and try to make sense of the Gibberish. This will utterly and completely take your mind off everything else. In no time at all, MAGIC will happen, and you'll succeed in dumping your problem right where it belongs. As a bonus, should you happen to have run out of toilet paper, and you've laid out the extra CASH for the soup-ah-deluxe velvety paged version of this ABRIGD, well, if you need any further explanation, then please contact us at the address below. You could be a perfect candidate: <https://bitsi.world/Contribute>.*

# The Abridged ABRIGD

## (The) ABRIGD

*[pr. as in English: abridged]*

1. The Abridged Gibberish Dictionary. The concise, if not incomplete, nevertheless *de facto* standard Gibberish dictionary.

## A-Hack pl. A-Hacks

*[pr. uh-hack]*

1. Cyber-attack.
2. A break in to a soft-BITS program, confuzer, file, etc.
3. An illicit modification to a soft-BITS program made with less-than-positive intentions

## ANALPRIDC

*[pr. anal-prid-dick]*

1. Analyst Prima-Donna Coder.
2. Software programmer.

**B****BACK-END**

*[pr. as in English: back end]*

1. The heart of a BITS (or IT) system.

*Note: One does not see this; one is only aware that it must be there, out there, somewhere, we suppose.*

**BBB**

*[pr. me-me-me – only replacing the m with a b, be-be-be]*

1. (The) Big Business Bosses.
2. (The) Big Bad Bosses.

**(the) Beast**

*[pr. as in English]*

1. The name of Bitsi's confuzer, the most powerful (collection of) confuzer(s) WOWI.

**BEDPAN**

*[pr. as in English: bed pan]*

1. Behavioral Description—Pattern Analysis. The name of a digital report used for analyzing behavior, usually that of criminals.

**BIG-AM-I**

*[pr. as in English: big am I]*

1. Bipolar Innovations, Generator of Amazingly Magnificent Inventions, an extremely large organization.

## Bio-Feelers

*[pr. as in English]*

1. Mega-microscopic bio-electronic equipment used in scientific, medical, and Bitsi technology.

## BITS

*[pr. as in English bits]*

1. Business Information Technology (IT) System(s).
2. Bits and pieces of software or hardware (small, big, huge, or soup-ah huge!).
3. Just about anything and everything under the sun that could be described as a bit, or indeed, multiple bits.
4. Information Technology (IT)
- ...
- 55.5. Biological Intelligence's Technological Successor (artificial intelligence or interference, depending on how you feel about it).
- ...
111. Brutish, Incredibly Terrifying Situation, that can shake up a person's world, shattering it into gazillions of bits.

## (The) BITS Inspector

*[pr. as in English]*

1. The most powerful businessman known to humankind.

## BITS-Pro

*[pr. bits-pr-oh]*

1. BITS professional. Someone who works in the BITS industry.

2. IT professional. Someone who works in the IT industry. (This is an outdated term.)

## **BITS-SECS**

*[pr. as in English bit-sex]*

1. Bitsi's Security Squad.
2. Lord-IT's Security Squad.
3. BITS Security Squad, an investigative team that carries out its work largely in the field, in other words, field agent.

## **BITS-SITTER**

*[pr. as in English bit-sitter]*

1. Bitsi's auditors.
2. Lord-IT's auditors.
3. BITS auditors, an investigative team that carries out its work solely from behind a computer, in other words, non-field agent.

## **Bitsi**

*[pr. as in English bit-see]*

1. The BITS Inspector.

## **Bitsi-FREQ pl. Bitsi-FREQs**

*[pr. as in English bit-see-freak]*

1. Bitsi-Lite transmission frequencies, similar to radio waves, only much more advanced.

## **Bitsi-Lite**

*[pr. as in English bit-see-light]*

1. Bitsi's satellite technology.
2. Bitsi's satellite-farm, the single biggest satellite farm in space today.
3. Satellite.

## **Bitsi-Lites the Skies**

*[pr. as in English bit-see-lights-the-skies]*

1. Second largest company WOWI, owned by Bitsi.

## **Bitsi-Tone**

*[pr. as in English bit-see-tone]*

1. The infamous tone of the BITS Inspector when he's angry.

## **BOJ-OB**

*[pr. bodge-ob, commonly spoken as bodge job]*

1. Business Officer & Judiciary of Online Business, senior director responsible for a given area of business.

## **BRITCHIS**

*[pr. as in English: britches]*

1. Firewall.
2. Barrier Repelling Intruders, Technologically Categorized as Highly Impenetrable and Secure.

## **CASH**

*[pr. as in English]*

1. Cash or money.
2. Any form of financial currency or contract involving cash or money, e.g., investment, bond, dolly-notes, etc.
3. Collectible Assets, Security (or Savings) Historically.
4. Corrupt Ascertainment of Someone's Hourly-wage.

## **CASH-COW**

*[pr. as in English]*

1. BIG-AM-I's BITS (or system) for receiving or collecting payments, or CASH.

## **CASH-PILE**

*[pr. as in English]*

1. A bank owned by BIG-AM-I.

## **CCIO**

*[pr. si-si-yo]*

1. Chief Communication and Information Officer.

*Note: Formerly known as CIO.*

## **CCOTCHA**

*[pr. as in English gotcha, by those in-the-know, and cot-cha by everyone else]*

1. Covert Communication Transmission Channel, a cranially implanted mega-microscopic secret communication device. A brain-wired, walkie-talkie-with-video.

## CHABLIS

*[pr. as in English (and French), the name of the wine]*

1. List of all changes to production (or live) software systems.
2. Changes to BITS list.

*Note: These are changes made when a system is installed, (re)configured, or deployed into production as opposed to changes in the software (or program code).*

## CHOPPA

*[pr. as in English chopper]*

1. Nuke-Li-Aerially-powered flying vehicle, a cross between an ancient Harley and a soup-ah-sonic jet.

*Note: The specs state that the average passenger capacity of the CHOPPA is 2.5 people.*

## CLIMACCSSS

*[pr.as in English climax]*

1. Communications matrix.
2. Contacts list.
3. Comprehensive List of Involved, for Meaningful Assessment and Communication Concerning Severely Shocking Situations.
4. Counter-productive List of Idiots and Misfits that Accidentally Contribute to the Carnage of Stupidly Smashed Systems.

## CLOGS

*[pr. as in English]*

1. Collated LOG Statements.
2. System logs.
3. Wooden shoes that usually end up stinking to high heaven from the inside and outside because they're usually worn for many years before being thrown out, are rarely (properly) washed, and are often used when doing jobs where one is usually up to the elbows in feces (or muck) of one flavor or another.

## CMA

*[pr. c-m-a]*

1. Cover My Ass.

## COCKS

*[pr. as in English: cock-s]*

*[origin: BIG-AM-I]*

1. Cox, the CCIO of BIG-AM-I.
2. Cox's Offensive for Cooking up Killer Services, as in really great, useful, exciting but definitely not deadly services.

## Come-again

*[pr. as in English]*

1. "Come again?" the name of Bitsi's second-favorite space-pad, the one he mostly uses for controlling his O-WE-COME meetings.

## COMMINGS

*[pr. cum-ing-s]*

1. Coincidence or coincidences.

*Note: One COMMINGS, many COMMINGS, as in one sheep, many sheep.*

## confuzer

*[pr. confuse-er]*

1. Computer, as it was called in ancient times.
2. A gadget or piece of equipment that confuses most people.

## confuzerized

*[pr. confuse-er-eyes-d]*

1. Computerized.
2. Confused.

## confuzing

*[pr. as in English: confusing]*

1. Computing.

## confuzing-power

*[pr. as in English: confusing power]*

1. Computing power.
2. A measure of the ability to confuse.

*Note: The more power, the more confusing.*

## Conkerer

*[pr. as in English: conqueror]*

1. Number-one browser WOWI, copyright BIG-AM-I.

## CRAPP

(see also FLAPP)

*[pr. as in English]*

1. Crash of Abnormally Painful Proportions, always a system crash.

## CRAPPING

(see also FLAPPING)

*[pr.as in English]*

1. CRAPP Immediately Neutralizing Giants.

*Note: Only a smattering of organizations has been known to survive a major CRAPPING.*

## CREAM-EMTO-BITS

*[pr. cream-em-to-bits]*

1. Take out the bad guy(s).
2. Crush by Exposure the Abominable Malefactor, Eliminating the Menace to BITS.

## CYA

*[pr. as in English: c-y-a]*

1. Cover Your Ass.

## D

### **Delilah**

*[pr. as in the Bible]*

1. Combined job title and appointed name of Bitsi's Chief BITS-SITTER.

### **DIGI**

*[pr. dij-ee]*

1. Digital.

### **DIGI-DIRT**

*[pr. dij-ee-der-t]*

1. Data or information, often revealing and/or incriminating.
2. Digital Dump of Indisputable Records of Transgression.

### **DIGI-DIRT-CRAWLER**

*[pr. dij-ee-der-t crawler]*

1. Bitsi's worm for breaking into anything confuzerized.

### **DIGI-DIRT-DIGGER**

*[pr. dij-ee-der-t digger]*

1. Bitsi's data collector program for scraping up DIGI-DIRT.

## **DIGI-DIRT-MAPP**

*[pr. dij-ee-der-t map]*

1. Bitsi's all-powerful menu-driven program for making life easier when working on the BEAST.

## **DIGI-DIRT-STORE**

*[pr. dij-ee-der-t stor]*

1. Bitsi's database.

## **DIGI-LOCKER**

*[pr. dij-ee lock-er]*

1. Digital safe for securing Bitsi's and Lord-IT's products and data.

## **DIGIT-FONE**

*[pr. dig-it fohn]*

1. Mobile phone.

## **DOLLY, pl. DOLLIES**

*[pr. as in English]*

1. The one-and-only currency WOWI, used everywhere.

## **dosh**

*[pr. as in English]*

1. money, or CASH.

## DROSS

*[pr. as in English]*

1. Dynamically Recyclable Operating System Supérieur, copyright Lord-IT House.
2. Operating system.

*Note: Replaced Windows, Linux, z/OS, iOS, MAC OS, Android, and all other operating systems*

3. Waste matter, worthless matter, often expressed as “what a load of old crap.”

## dupli-mate

*[pr. dupe-li-mate]*

1. Duplicate, copy, or replica.
2. To illegally duplicate, copy, or replicate.
3. To make a replica of something and screw with it so badly that the original is no longer recognizable.
4. An abomination.

## dupli-mation

*[pr. dupe-li-may-shun]*

1. The result or outcome of dupli-mating.
2. An act or instance of dupli-mating.
3. An abomination.

**E**

## *Exhausting Gibberish*

*[pr. as in English]*

1. An abbreviation for the publication *Exhausting Gibberish, The Dictionary*, which holds the formal Gibberish language specification.

**F**

## **FITS**

*[pr. as in English]*

1. Financial Institution, Technologically Secured, meaning that the WINCCCCER'S BITS will protect against an unstable financial climate evolving, thus securing everyone's CASH, WOWI.
2. Financial Institution, Theoretically Secure.
3. Frivolous Investors who Thrive on Speculation.

## **FLAPP**

(see also CRAPP)

*[pr. as in English]*

1. Nasty system crash.

## FLAPPING

(see also CRAPPING)

*[pr. as in English]*

1. Nasty system crash with almost guaranteed financially crippling effect.

## FLICKEM

*[pr. flick-em]*

1. Finder for a LICKEM. Simply said, a program for finding and/or tracking wireless devices.

## FONE

*[pr. fohn]*

1. Short for DIGIT-FONE.

## FOOLEM

*[pr. fool-em]*

1. Follow, Obscurely, Literally Every Movement.
2. Program for someone tracking and recording anything and everything of interest.

## FOOLEMALL

*[pr. fool-em-all]*

1. Same as FOOLEM, but with the knock-on effect of following everyone the FOOLEM suspect contacts.

## FOOLHIM/FOOLHER

*[pr. fool-him/her]*

1. Same as FOOLEM but with some gender implication.

## FRONT-END

*[pr. as in English]*

1. The visible part of a system one sees on the screen.

## (The) Fruit

*[pr. as in English]*

1. The latest age-prevention drug, and, it actually appears to work.  
Formerly known as “The Life Giver,” and “Life Ever-lasting.”

## GLOBCHAT

*[pr. globb-chat]*

1. Global online chat session, a feature of the O-WE-COME meeting.

## GLOBHED

*[pr. globb-head]*

1. Global Helpdesk.
2. Global Helpdesk Agent or employee.

## GLUE

*[pr. as in English]*

1. Generic Language for Uniting Everything.
2. A diabolical architectural approach for integrating two or more systems: “Let’s just stick ’em together.”
3. Most likely the substance being abused while the technicians designed the GLUE.

## GODS-AVEUS

*[pr. as in English god save us]*

1. Gibberish Opposition Death Squad Aimed at Vindicating Everyone of Unforgivable Slang.

## HAH-FLICKEM

*[pr. ha-flick-em]*

1. Hand-Held FLICKEM, a small remote-control-like device for using the FLICKEM program.

## HANDBAG

*[pr. as in English]*

1. A feature of the FRONT-END to Bitsi’s mega-powerful search-engine.

*Note: This interpretation is relatively recent.*

2. A bag mostly used by women for holding (supposedly, usually) smaller items.

---

## hard-BITS

*[pr. as in English]*

1. Hardware, such as a confuzer, spacey-screen, etc.

## HPD

*[pr. h-p-d]*

1. Honorary Protector of Dollies, the biggest WINCCER ever WOWI.

*Note: This interpretation is relatively recent.*

2. Histrionic Personality Disorder.

## I

## INARDS

*[pr. innards]*

1. Information Archive Recordings—Data Store, holding recordings of all activity on all business premises WOWI since the year 2021.

## J

## JERK

*[pr. as in English]*

1. Jerry Karmich'l, former BIG-AM-I Sissy.

*Note: This interpretation is relatively recent.*

2. Jerk.

## Jonesy

*[pr. johnz-i]*

1. Combined job title and appointed name of Lord-IT's chief of security.

*Of all the Gibberish, uttered in all the businesses, in all the world, no words starting with the letter K have made it into The ABRIGD—yet.*

## L'ARCH

*[pr. larch]*

1. The chief architect.

*Note: Formerly nicknamed L'ARCHANGEL, until the church intervened.*

## LASAROMIC

*[pr. lass-ah-rom-ick]*

1. An inferior power source, only used in inferior weaponry.

## LEACH

*[pr. leech]*

1. Lead Enterprise Architect, Constructor of Hi-tech.

## LICKEM

*[pr. lick-em]*

1. Bitsi's wireless technology device, built into all confuzers WOWI.

## Lord-IT

*[pr. lord-it or lord-eye-tee]*

1. According to popular opinion, the most powerful businessman known to humankind.

## Lord-IT House

*[pr. lord-it or lord-eye-tee house]*

1. Largest organization WOWI, owned by Lord-IT and Bitsi.

## MAD

*[pr. as in English]*

1. System down.
2. Major Atomic-like Downtime.
3. Something to be avoided.
4. Angry, enraged, furious.

## MAD-NESS

*[pr. as in English]*

1. System down.
2. Major Atomic-like Downtime—Never Expected Spectacular Shock.
3. Something to be avoided.

## MAD-ONNA MAGIC

*[pr. as written. If one has problems with this pronunciation, then try to think like a virgin might do, if you can remember; this apparently often helps.]*

1. BIG System DOWN, Oh No! Not Again!
2. Something to be avoided at all cost.

## MAGIC

*[pr. as in English]*

1. BIG system, one that no one or very few know how it is designed or works.
2. Monolithic Assemblage of Ginormous Informational Components.
3. Multifarious Assortment of Good-for-nothing, Incomprehensible Crap.
4. Magic.

## MAGICIAN

*[pr. as in English]*

1. On-call, on-duty system technician.

## MAVACAPA

*[pr. ma-va-cap-a]*

1. Maximum Available Capacity.

*Note: Often used in such a statement: “The BITS was pushing up MAVACAPA for three hours, then suddenly it went MAD.”*

## MOTHER

*[pr. as in English]*

1. Mother organization or top parent organization.

*Note: Often also used to indicate frustration: “(oh) MOTHER!”*

2. Mother.

## MOWALL

*[pr. moh-wall]*

1. A soft-BITS program for moving or rearranging the offices walls within the BIG-AM-I buildings.

## NETNERD

*[pr. net-nurd]*

1. Network technician.

## Nuke-Li-Aerial power

*[pr. nyook-li-aerial]*

1. Currently the most powerful form of energy known to humankind.

**O**

## **OBOY**

*[pr. oh-boy]*

1. Online Booking and Ordering, Yes, sir! (implying great system).

*Note: General opinion WOWI is that whoever named the OBOY system was tipsy at the time.*

2. Oh boy! as in “Oh, my Lord-IT!” or “Oh, my goodness!”

## **O-WE-COME**

*[pr. oh-we-cum]*

1. Online Web Conference and Meeting. Video-conferencing software, *copyright BIG-AM-I.*

*Note: No one now books a meeting at exactly one o'clock any more due to a play on Gibberish that became infamous many years ago.*

## **OOO-O-WE-COME**

*[pr. ooh-oh-we-cum]*

1. One-On-One O-WE-COME. A hovering or flying confuzer screen or monitor, shaped like a bald head.

*Note: Produced by Lord-IT House and Bitsi-Lites the Skies. A version with hair is still on the To-Do list.*

**P****peemail**

*[pr. pee-may-ul]*

1. Weemail.
2. Pathetic Excuse of Email's Accountability for all Information (ever) Lost.

*Note: The term peemail is often used when making one's excuses for either not having responded to a weemail or not having done something somebody requested of you by weemail.*

**PERPS**

*[pr. purp-s]*

1. Criminal(s)

*Note: One PERPS, many PERPS, as in one dumb sheep, many dumb sheep.*

**pissmail**

*[pr. piss-may-ul]*

1. Same as peemail.

*Note: This term doesn't cut it unless spoken in an extremely angry tone with the emphasis on the first syllable.*

**PRIVATE-LYFE**

*[pr. as in English private life]*

1. Personal tablet confuzer.

## PUKE

*[pr. as in English: “to throw up”; pyook]*

1. Person Ultimately Killed in the End.
2. Person to blame and who subsequently pays the price.
3. Mistake.

## PUSSIES

*[pr. as in the English plural word for pussycat – pussies]*

1. CCIO deputies.
2. Pushy Undergraduate of Sissy Stratagems—Intensified Education in Shopping.

*Note: Shopping and online business are synonymous terms.*

*Note: One PUSSIES, many PUSSIES, as in they’re all PUSSIES, or, one dumb sheep, gazillions of dumb sheep.*

## QUA-BITS

*[pr. kwa-bits]*

1. Quality of BITS.

**R****RAT RACE**

*[pr. as in English]*

1. Underhanded power struggle, often involving illicit actions, between nations or large organizations.
2. Dishonorable or illicit actions to advance one's career, usually at the cost of a colleague and/or close friend.
3. See an English dictionary for more meanings.

**S****SADCASE**

*[pr. as in English: sad-case]*

1. Database administrator.

**Samson**

*[pr. as in the Bible]*

1. Combined job title and appointed name of Bitsi's chief of BITS-SECS.

**screen-space**

*[pr. as in English]*

1. Software term, historically "window" or "panel" displayed on a spacey-screen.

## **Seribus**

*[pr. sse-ri-bus]*

1. “Serious business”, the name of Bitsi’s favorite space-pad.

## **SICCO**

*[pr. sick-oh]*

1. Situation Crisis Coordinator. The one person who is supposed to ride the high waves in a sea of panic that swells up when a system goes down.

## **Sissy**

*[pr. as in English]*

1. CCIO.

## **Sissy-O**

*[pr. sissy-oh]*

1. CCIO.

## **soft-BITS**

*[pr. as in English]*

1. Software, typically running on hard-BITS such as a confuzer.

## **soup-ah**
